Spread the cycling joy
rain or shine

Now 100% waterproof and fashion do go together!

Rain makes everything grow: flowers, plants, trees... and our inspiration! Rain got us thinking: "how do you keep your stuff dry?" Especially when it is raining cats and dogs. The result: three new series - Basil Noir, Urban Dry and Miles. These series meet the highest quality standards when it comes to the 'waterproof' predicate. And, of course, when it comes to the style and fashion requirements of the Basil design team.

Discover the Basil Effect in this brochure. Enjoy!

ENJOY THE

Little

THINGS IN LIFE

BECAUSE ONE DAY

YOU'LL LOOK BACK
AND REALIZE THEY WERE

Big Things

- Kurt Vonnegut -

Hello,

We are Basil. We like to see you enjoy riding your bicycle, which is why we make beautiful and functional bicycle accessories that encourage you to cycle more often. Because cycling is healthy and gives you a daily dose of happiness and exercise.

It all started 40 years ago, when Ine van Dam walked into the bicycle shop of Nico van Balveren. She was looking for a wicker basket for her bicycle. Nico developed such a basket and made Ine very happy. And the most important thing was: because of that basket she enjoyed her bike rides even more.

Not a whole lot has changed in our family business since that time. Our passion is devising products that make bicycling more attractive and enjoyable. And we always take your wishes into account.

We want to understand why and when you ride your bicycle. And also why en when you don't. We learn from that, every single day. We combine this information with our sense of quality, style and functionality. Together we can spread cycling joy. Will you join us?

On behalf of the Basil team,

Marthijn van Balveren

Style

-THE STYLE COLLECTION-

True style is about personality. It's the way you dress, talk, walk and not in the last place, the way you cycle. With the Basil lifestyle collection, your bicycle, too, becomes an extension of who you are. Add to that the daily exercise whilst helping to make the planet a better place, and you got it pretty much all covered. From an enchanting blossom print to sleek denim fabrics, we bring to you a stylish and functional collection of bicycle bags, baskets and matching accessories. And this year we added the new Urban Dry en Noir collection to it; highly fashionable black items, 100% waterproof.

That's what
we call a CEO:
**Charming,
Excellent and
Original!**

Basil Noir New

Now you can have your little black dress moment every day of the week. Because Basil introduces the Noir Collection. Stylish black cycling musthaves that make you very happy. Whenever you're on your way to the office or when you're going out with your BFF. Rain or shine, the Noir collection is waterproof. The Noir collection is beautifully designed, with a metropolitan chic and plenty of room for all your personal belongings. You go girl!

Black is simply great combined with... black.

There is romantic black, elegant black, businesslike black, stylish black ... At Basil you will find it all. And nothing is more fun than using black to make exciting combinations. Because black is simply great combined with black. And the colour? That obviously indicates your sophisticated personality.

A woman with long brown hair is riding a dark-colored bicycle on a cobblestone street. She is wearing a light blue trench coat over a white shirt, a black skirt, and black patterned tights with black shoes. The bicycle has a large, purple and white floral patterned basket on the front. The background shows a building with a large window and two ornate black street lamps on either side of the window. The overall scene is set in a classic, European-style urban environment.

Girl,
you make
**the flowers
bloom**

Basil Elegance

How to build
your own office
**(with the best
view in town)**

Basil Urban Dry

New

Birds are whistling an inspiring tune. Trees rustle softly in the background. A cyclist rushes past. Yes, we are talking business here. Because with Urban Dry you simply take your work stuff to a bench in the park. As easy as one-two-three. And there really is room for everything in the double bag, from your laptop to a comprehensive packed lunch. Although your office chair may be just too big. And should you get caught in a downpour, no problem.

Welded construction and waterproof (IPX3)

Essential

-THE ESSENTIAL COLLECTION-

You can put all kinds of stuff in it for a great day out, relaxing on your bike. A rug, a sandwich, a thermos bottle of coffee, your camera, you name it. Or you use it to carry your groceries on your regular Wednesday afternoon visit to the market. Whatever the case may be, a bag from the Essential Collection is incredibly versatile and always gives you the space to do what you enjoy. Each and every one of the well-known bags from the Essential Collection have become classics because of their excellent quality combined with an elegant, timeless design. And now we have added a new line: Miles. With a minimalistic, modern design and 100% waterproof.

Hurray, looking forward to the other **12 places to visit**

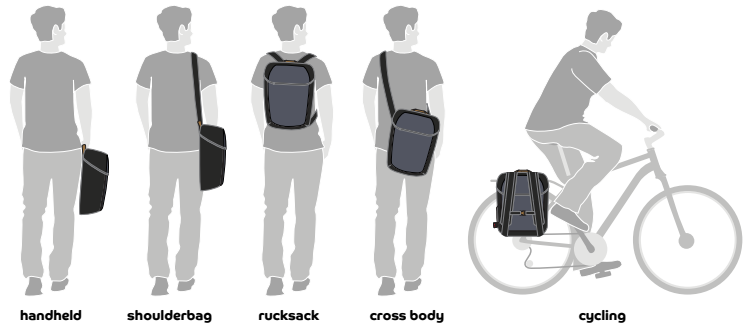

Basil Miles

New

There is so much to discover by bicycle. Hidden villages in the Dordogne. Impressive views in the Belgian Ardennes region, with a drink on the terrace of your hotel at night. And even closer to home there are probably many lovely spots you have on your bucket list. Whatever the case may be, you like to travel in style. Which makes the Miles series your ideal travel companion.

See, that is the good thing about Miles: you can carry your bag the way you want. As a handbag, a rucksack, across your shoulder, cross-body ... and of course you can just attach it to your bike. So many options, doesn't that make you happy?

Baskets

-THE BASKET COLLECTION-

This is how it all started. In 1976, we developed a wicker basket for a lovely lady called Ine van Dam. It made her very happy, as it allowed her to enjoy her bicycle even more. Now, 40 years later, we take pride in creating the perfect bicycle basket for just about anyone. Choose from a front or rear model. Removable or permanently mounted. From fine-meshed metal to rattan. From wicker to aluminium wire. We create baskets that not only meet your wishes, but also your style and flair.

BASIL CENTO WSL SYSTEM See page 75

The patented WSL system ensures perfect mounting of the Cento basket. The system consists of 4 ingenious feet that allow the basket to be mounted onto a wide range of luggage carriers in a safe and stable manner. The system is extremely universal, the width and length can be adjusted, it fits onto various diameters of luggage carrier frames, it can be used in conjunction with batteries in the luggage carrier (E-bikes). It can be supplied with spacers that also allow the basket to be fitted onto carriers with raised fronts or backs.

Systems

-SYSTEMS & INNOVATIONS-

Now that you have chosen the bag or basket that fits your needs and style, you'll want to know: 'How do I attach it to my bike?' Preferably it'd be simple, but above all safe and secure. Basil can help you with that as well. We have developed a complete collection of innovative mounting systems to attach any basket and any bag to any bike. We are particularly proud of our new Universal Bridge System and Multi System Baskets. Try and discover the Basil effect. We wish you a pleasant ride.

Waterproof

Basil Waterproof

Explanation of waterproof:

- Meets IPX3, with due observance of the applicable IP Code (IEC 60529)
- IPX 3 applies to the main compartment of the bags.
- Sharp objects may have a negative effect on the water resistance of the materials used.
- Condensation may be the cause of items inside the waterproof inner bag feeling damp. For this reason electronic equipment must always be packed in a separate waterproof cover.
- The level of water resistance was determined on the basis of normal use with a maximum load of 10kg per main compartment. A maximum of 2.5 kg applies to the handlebar bags.
- The water resistance cannot be guaranteed if the flap and any roll top closures of the bag are not overlapped and closed properly.
- Bags must be dried carefully after every exposure to rainwater.
- In general terms, the effects of the weather will gradually reduce the water resistance of fabrics. We recommend periodically treating the bags with an appropriate, water-repelling spray.

Basil **E-Bike solutions**

E-bikes are becoming increasingly popular. But because they are often built very differently, for example, the battery might be built into the luggage carrier, it is impossible to mount most baskets and bags. Basil has come up with a number of solutions, allowing bags and baskets to be fit onto E-bikes too.

REAR SOLUTIONS

- Basil Hook On System
- BasSolid System
- Basil Flex System
- Basil WSL System
- Basil Clever System
- Basil Universal Bridge System

Rain or shine,
fashion & waterproof
are **now BFF's**
(Basil Friends Forever)

Now 100% waterproof and fashion do go together!

Basil waterproof

With the Urban Dry, Miles and Noir bags Basil introduces a unique line of bags to the market. The bags have been developed in such a way that your things stay dry even during heavy downpours, without any concession to the look of the bags. Basil once again proves that fashion and function can indeed go hand in hand. The water resistance of the new bags was achieved with a combination of waterproof material and a watertight construction.

- The water resistance of materials is described in terms of the water column. This is the amount of water (in mm per cm²) that the material can withstand before it starts letting in water. The material can be classed as waterproof with a water column of 800mm or better. Various materials used for the new collection go up to a water column of 100.000mm!
- A waterproof construction consists of the finish of the connecting seams and the closures of the bag. All the Basil waterproof bags feature welded or taped seams and have a folding or roll top closure. In addition, the Miles bags have a waterproof interior bag and zips.

Because of their materials and construction the Urban Dry, Miles and Noir bags meet, among other things, the IPX3 norm¹, a frequently used standard. However, Basil went one step further and has drastically increased the test requirements and 'translated' them into the duration that you can cycle in the rain in different types of showers. Result: with the new waterproof lines of Basil bags you can cycle in a normal rain shower for up to 24 hours before your things get wet!² This way Basil gives you even more freedom to determine when and where you take your bike.

LIGHT RAIN (DRIZZLE)	NORMAL RAIN SHOWER	HEAVY RAIN SHOWER	DOWNPOUR ³
			
4 DAYS	24 HOURS	8 HOURS	3 HOURS

Note: the level of water resistance is partially dependent on the following factors: the intensity of the exposure to water, the load carried in the bag(s), the drying time between the exposures to water and the age of the bag. For a further explanation about waterproof see page 69

- ¹ With the exception of the Noir double bag, which complies with IPX2
- ² Applies to the main compartment of the bag
- ³ Definition: in this type of rain you are soaked to the skin in seconds

Basil Universal Bridge System

Basil has developed the new Universal Bridge system, so you are able to quickly and easily remove your double bag from your luggage carrier. By means of eight openings the Universal Bridge system is easy to install on your luggage carrier. This new system is suitable for all luggage carriers including e-bikes, Racktime and i-Rack/Carrymore. It's all in the name: Universal! And with the Basil Additional Handle you can take your double bag with you, whenever you feel like it. For instance to the supermarket.

Basil Hook On System

This innovative system, including the Basil Hooks, is a feature on all of Basil's new luxury bags. The hooks are width-adjustable for the best possible positioning on the luggage carrier, which makes the bags suitable for use on Basil front carriers too. The locking system with its green flag provides extra security to prevent loss. Also suitable for E-bikes. For tubes up to 16 mm Ø.

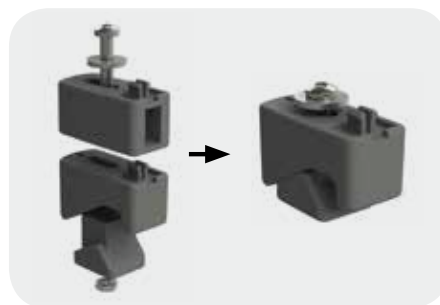

Basil Hook On System in zipper pocket

How do you turn a bicycle bag into a fashion accessory? The answer is the zipper pocket, invented and introduced by Basil. the hook on system can be hidden away in the zipper pocket, transforming the bicycle bag into a 'normal' shoulder bag in the blink of an eye.

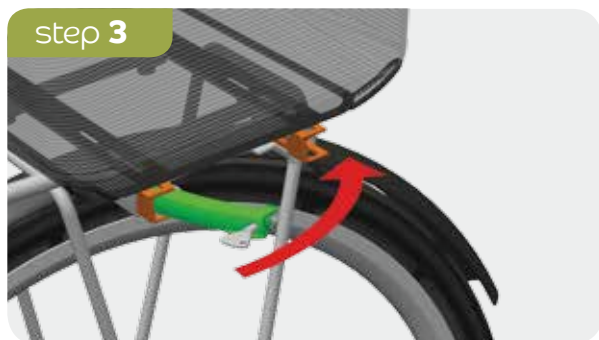

Basil WSL System

The patented WSL system ensures perfect mounting of our basket. The system consists of 4 ingenious feet that allow the basket to be mounted onto a wide range of luggage carriers in a safe and stable manner. The system is universal, the width and length can be adjusted, it fits onto various diameters of luggage carrier frames, it can be used in conjunction with batteries in the luggage carrier (E-bikes). Optional: it can be supplied with heightening elements that also allow the basket to be fitted onto carriers with raised fronts or backs.

Basil BasSolid System

This system allows baskets to be fixed firmly to the luggage carrier with one easy move. It fits on E- bikes, includes a lock for extra security and comes with heightening elements for bikes with back lights that are higher than the luggage carrier. The following baskets are equipped with the Bassolid system: Cento BasSolid, Catu for luggage carriers 11-18 cm width.

Basil Flex System

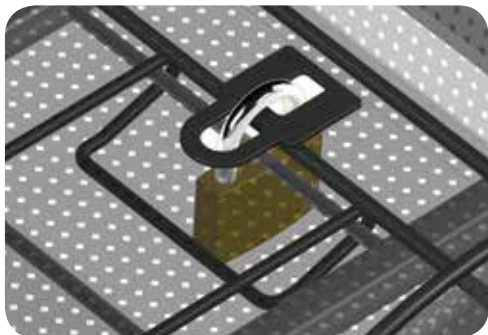

The Basil Flex System is a smart system for luggage carriers with a spring clamp. With its adjustable hooks underneath the basket, the Flex System fits on a wide range of luggage carriers. The following baskets are equipped with the Basil Flex system: Capri Flex, Corsica Luxe II Flex, Cadiz Flex, Cairo Luxe Flex, Concord XL Flex and Concord Luxe II Flex. These baskets cannot be used on luggage carriers without a spring clamp.

BASIL
PATENT

Basil Base New

Redesigning a classic is not an easy task, but the designers at Basil have succeeded! The new rear baskets are with capitals BEST BASICS! Our designers and engineers considered every line, detail, function, design and came up with this new standard. The Base basket is equipped with a new design for mounting. With the hook underneath the basket, the Base system fits on a wide range of luggage carriers. A design feature of the Base is the integrated bicycle lock space, to secure your Basil Base basket.

Basil **Clever System**

What makes our Clever System so clever?

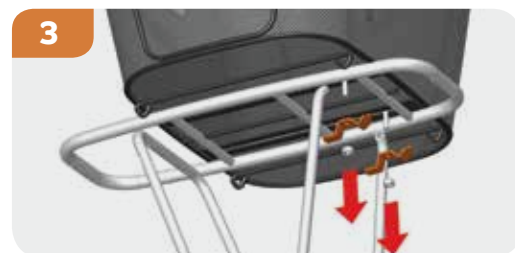

Whether you want to conveniently take your Bold basket with you into a shop or to firmly mount it to your carrier rack: Clever does what you want it to do. It's one single system that can be used in two ways. The removable option works with a spring clamp. Simply push the two hooks of your basket onto your carrier and fixate the spring clamp onto it. The permanent system works with an extra set of hooks that are included in the Clever pack. Mount the extra hooks to the basket and turn the pre assembled hooks 180 degrees. Then clasp the four hooks around the diagonal carrier bar and fasten the four accompanying bolts firmly in place. Well done, you clever shrew. Now just stow and go.

QUICK RELEASE

PERMANENTLY MOUNTED

BasEasy System

For removable bags and baskets

Basil has developed a variety of holders for safely and securely mounting removable baskets on the handlebars. Different mounting points, and possible 'obstacles' such as a child's seat, have been taken into consideration. The different types of flexible BasEasy holders make it possible to mount a basket on every type of bicycle, including mountain bikes, folding bikes and E-bikes. In addition, the innovative Carrier Rack enables any bag with equipped with a Hook On System, such as shoulder bags, shopping bags and laptop bags, to be carried on the front of the bicycle.

Two Piece **Head Tube Holder**

The head tube holder is the traditional method for mounting a basket on a bicycle. However, it requires disassembling the handlebars and cables. Basil has developed a clever solution by means of the patent-
 ed two part head tube holder. The holder is easy and quick to install, and it's still safe and stable.
 Included with Boston XL. Available in two sizes: 22 mm and 25.4 mm Ø.

70164	black	25 mm

Unique twopiece steering head holder, can be mounted without disassembly of headset/handlebar, compatible with all Basil permanent baskets, 22mm or 25mm Ø handlebar stems

Unieke tweedelige balhoofdhouder, te monteren zonderdat stuur verwijderd hoeft te worden, voor alle permanent manden van BASIL, voor 22mm of 25mm Ø balhoofd buizen

Einzigartiger zweiteilige Steuerkopfrohrhalter, Montage möglich ohne dass der Lenker demontiert brauchr zu werden, für alle Festmontage BASIL Körbe, für 22mm oder 25mm Ø Rohre

Binaire douille de direction unique, montage sans démonter le guidon, pour tous les paniers avec système de montage permanent de Basil, apt pour potences de ø 22mm ou 25mm diamètre

BASIL HANDLEBAR HOLDER FOR KLICKFIX PLATES

art. nr color
70169 anthracite

holder, synthetic, quick mount, handlebars ø22-31,8mm, adj. angle, extra solid thanks to extra fixation, compatible with all klickfix plates, can be used together w/Ebike displays (i.e. Bosch display)

stuurbochthouder, kunststof, snelle montage, stuurbochten Ø22 - 31,8mm, instelbare hoek, zeer stabiel ivm extra borging, voor alle klickfix platen, ook icm Ebikesdisplays (o.a. BOSCH -system)

Lenkerhalter, Kunstst., einf. Montage, Rohre Ø22-31,8mm, Neigungswinkel einstellb., sehr stabil, extra Sicherung, für alle Klickfix Basisplatten, kombinierb. mit E-Bikesdisplays (z.B. BOSCH)

support de guidon, synthétique, montage rapide, guidons ø 22-31,8mm, angle amovible, solide grace à fixation, pour tous les plaques klickfix, aussi avec display Ebikes (e.o. système Bosch)

BRASIL BASSOLID SYSTEM

removable system

There are many types of luggage carriers, all differing in width, length, heightening elements, tube diameters, tube shapes, etc. And each year many new versions are introduced. Would it not be ideal if there were one system that could deal with (nearly) every luggage carrier... There is good news: such a system exists! Our (patented) BasSolid system has been designed in such a way that it is adjustable in width, suits 6-20 mm \emptyset tube diameters and even fits tapering carriers with heightened backs. The system is pre-mounted and needs to be adjusted to the carrier width only once. A smartly designed handle activates a clever lever mechanism which allows the baskets to be clipped to a carrier quickly, firmly and 'blindly'. In addition, the system is provided with a lock. Baskets Gatu, Cosa and Cento are equipped with the Basil Clever System. The system has been TUV approved.

Er bestaan veel soorten bagagedragers die allemaal van elkaar verschillen in breedte, lengte, verhogingen, buisdikten, vorm van de buizen, enz. Elk jaar komen er bovendien vele nieuwe uitvoeringen bij. Het zou ideaal zijn als er één systeem bestond dat met (bijna) elke drager raad weet. Goed nieuws, want dat systeem bestaat! Ons (gepatenteerde) BasSolid-systeem is zo ontworpen dat het instelbaar is in breedte, geschikt is voor buizen van 6-20 mm \emptyset , en ook past op taps toelopende dragers met een verhoogde achterzijde. Het systeem is voorgeïnstalleerd en hoeft alleen maar (éénmalig) even te worden afgesteld op de breedte van de drager. Met een fraai vormgegeven hendel wordt een slim hefboommechanisme in werking gezet, waardoor de manden snel, stabiel, en 'blind' op een drager worden geklikt. Bovendien is het systeem ook nog voorzien van een slot. De manden Gatu, Cosa en Cento zijn uitgerust met het BasSolid-systeem. Het systeem is TÜV-gekeurd.

Es gibt viele Arten von Gepäckträgern, die alle mit Bezug auf Breite, Länge, Erhöhungen, Rohrdicken, Form der Rohre usw. unterschiedlich sind. Und jedes Jahr kommen viele neue Ausführungen hinzu. Es wäre ideal, wenn es ein System gäbe, das für (fast) jeden Gepäckträger geeignet ist... Die gute Nachricht ist: dieses System gibt es! Unser (patentiertes) BasSolid-System ist so konstruiert, dass es in Breite verstellbar ist, geeignet ist für 6 bis 20mm \emptyset Rohre, auch für konisch zulaufende Träger mit einer erhöhten Rückseite. Das System ist vormontiert und braucht nur (einmalig) kurz auf die Breite des Gepäckträgers eingestellt zu werden. Mittels eines schön gestalteten Bedienungshebels wird ein intelligenter Mechanismus in Gang gesetzt, wodurch die Körbe schnell, stabil und problemlos auf den Gepäckträger "geklickt" werden. Das System ist außerdem noch versehen mit einem Schloss. Die Körbe Gatu, Cosa und Cento sind mit dem BasSolid-System ausgerüstet. Das System ist TÜV geprüft.

Il existe une grande variété de porte-bagages, tous différents en termes de largeur, longueur, surélévation, diamètre et forme des tubes... Et de nouveaux modèles apparaissent tous les ans. Idéalement, il faudrait un système qui puisse être utilisé avec la (quasi-)totalité des supports. Eh bien, ce système existe! Notre système (breveté) BasSolid-système est réglable en largeur, prévu pour des tubes de 6 à 20 mm \emptyset , et peut être utilisé avec des porte-bagages coniques et surélevés à l'arrière. Le système est monté dans la production, et ne demande plus qu'un seul réglage en fonction de la largeur du support. Un levier, très esthétique, permet d'enclencher un astucieux mécanisme de levier, grâce auquel les paniers sont encliqués rapidement sur le porte-bagages et y restent stables. De plus, le système est pourvu d'une serrure. Les paniers Gatu, Cosa et Cento (non-amovibles) sont équipés du BasSolid-système. Le système est homologué TÜV.

BASIL BASEASY-SYSTEM II HANDLEBAR STEMHOLDER/HEAD TUBE HOLDER

art. nr color

70103 anthracite

removable system

- on handlebar stem or head tube
- perfectly suitable for use in combination with adjustable handlebars!
- can be mounted quick as lightning by means of a free supplied Basil socket spanner and a premounted part on basket or bag
- mounting of stainless-steel band: quick & stylish & strong & firm as a rock
- stainless-steel band for 22-26 mm \emptyset handlebar stems are standard
- stainless-steel bands are also available for 25-30 mm, 31-35 mm and 36-40 mm \emptyset , which makes the handlebar stemholder also suitable for mounting to a head tube (up to 40 mm)! (70110, 70111, 70112)
- minimum required free height on tube: 38 mm
- extending in 3 safe fixed positions (for long Ahead and child's seat)
- extra fastening point for guiding handlebar cables (so that these are not in the way)
- beautifully designed synthetic cover
- carefully finished
- very stable and solid, TÜV-approved

- op stuurpen of balhoofdbuis
- perfect voor gebruik in combinatie met verstelbare sturen!
- razendsnel te monteren door middel van gratis meegeleverde Basil-dopsleutel en voorgemonteerd gedeelte aan de mand of tas
- RVS-band montage: snel & stijlvol & sterk & muurvast
- standaard geleverd met RVS-band voor 22 tot 26 mm \emptyset stuurpen
- er zijn ook RVS-banden verkrijgbaar voor buizen van 25-30 mm, 31-35 mm en 36-40 mm \emptyset , daarmee is de stuurpenhouder ook geschikt voor montage aan een balhoofdbuis (tot 40 mm)! (70110, 70111, 70112).
- minimaal benodigde vrije hoogte op buis: 38 mm
- uitschuifbaar in 3 veilige vaste standen (L.b.v. lange voorbouw en kinderzitje)
- speciaal bevestigingspunt voor geleiding van stuurkabels (zodat deze niet in de weg zitten)
- fraaie design kunststof behuizing
- verzorgde afwerking
- zeer stabiel en degelijk, TÜV-gekeurd

- am Lenkerrohr oder Steuerkopfröhr
- perfekt geeignet für Benutzung in Kombination mit verstellbaren Lenker!
- schnell zu montieren mittels kostenlos mitgelieferten Basil-Steckschlüssels und ein Teil vormontiert am Korb oder Tasche
- Edelstahlband Montage: schnell & stilvoll & stark & völlig fest
- standard geliefert mit Edelstahlband für 22-26 mm \emptyset Lenkerrohre
- Edelstahlbänder erhältlich für Rohre von 25-30 mm, 31-35 mm und 36-40 mm \emptyset , dadurch ist der Lenkerrohrhalter auch geeignet für Montage an einem Steuerkopfröhr (bis 40 mm)! (70110, 70111, 70112).
- minimal benötigte freie Höhe am Rohr: 38 mm
- ausziehbar in drei festen Positionen (für langen Vorbau und Kindersitz)
- extra Kabelfixierungsöse: hält Kabel weg vom Einrastpunkt
- modernes design Kunststoff-Gehäuse
- gepflegte Verarbeitung
- sehr stabil und gediegen, TÜV-approved

- sur potences ou la douille de direction
- idéal pour une utilisation avec des cintres réglables
- montage ultrarapide grâce à la clé à douille Basil incluse, et à la partie préinstallée sur le panier ou la sacoche
- montage avec bande en acier inoxydable: rapide & élégant, résistant & solide
- livré par défaut avec une bande en acier inoxydable pour potences de 22 à 26 mm \emptyset
- des bandes en acier inoxydable pour potences de 25-30 mm, 31-35 mm et 36-40 mm \emptyset
- sont également disponibles afin de permettre le montage à la douille de direction (jusqu'à 40 mm). (70110, 70111, 70112).
- hauteur minimale nécessaire au-dessus du tube : 38 mm
- 3 positions de réglage fixes (pour potence longue ou siège enfant)
- point de fixation spécial pour le guidage des câbles de commande (afin d'éviter toute gêne)
- boîtier synthétique au design élégant
- finition soignée
- très stable et solide
- homologué TÜV

BASIL FLEX-SYSTEM

Many baskets for rear fitting are mounted using a spring clamp. With this type of mounting the hooks in the base are secured to a fixed spot on the basket. However, because of the wide range of luggage carrier designs many baskets no longer fit (very well) on the carriers. And that's why Basil has developed the patented "Flex system": the hooks under the basket are adjustable so that the baskets can fit on a much wider range of carriers!

Veel manden voor achterop worden bevestigd met een klemveer. De haken in de bodem zijn daarbij op een vaste plek aan de mand bevestigd. Door de veelheid aan bagagedragers passen echter veel manden niet (goed) meer op de dragers. Daarom heeft Basil het gepatenteerde "Flex-system" ontworpen: de haken onder de mand zijn verstelbaar, zodat de manden op veel meer dragers passen!

Viele Körbe für hinten werden mit einer Klemmfeder befestigt. Die Haken im Boden sind dabei an einer festen Stelle am Korb befestigt. Durch die Vielzahl von Gepäckträgern passen jedoch viele Körbe nicht mehr (richtig) auf die Träger. Deshalb hat Basil das patentierte "Flex-System" entworfen: Die Haken unter dem Korb sind v erstellbar, sodass die Körbe auf viel mehr Träger passen!

Beaucoup des paniers de vélo arrière devenir attaché avec un crochet à ressort. Les crochets dans le fond prennent une place permanente attaché dans le panier. Par la multitude de porte-bagages ne s'applique pas (bien) beaucoup des paniers sur les porteurs. C'est pourquoi que Basil ébauche le "Flex-system" breveté: les crochets au-dessous de panier sont réglable, de sorte que les paniers pour s'adapter bien davantage plus de porteurs!

BASIL WSL

permanent system

Rear basket, steel, mesh, permant mounting with patented WSL-system, easy assembly, adjustable in width and length, also fit for carrier racks with raised or lowered front/backside, compatible with many E-bikes carrier racks

Fietsmand, staal, fijnmazig, achterop, vaste montage dmv gepatenteerd WSL-systeem, eenvoudige montage, breedte/lengthe instelbaar, past ook op dragers met verhoogde voor/achterzijde, geschikt voor zeer veel E-bikes bagagedragers

HR-Korb, Stahl, engmaschig, feste Montage mit patentiert WSL-system, leichte Montage, Breite und Länge verstellbar, passt auch auf erhöhte vor/hinterseite, kompetent für viele E-bikes Gepäckträger

Panier de vélo arrière, mailles fines, montage permanent par système patenté WSL, montage facile, largeur et longueur amovible, aussi comptable avec porte-bagages avec côté avant et arrière enlevé, apt pour la majorité des portes-bagages

QUICK RELEASE

PERMANENTLY MOUNTED

CLEVER-SYSTEM

removable system

WHAT MAKES OUR CLEVER SYSTEM SO CLEVER?

Whether you want to conveniently take your Bold basket with you into a shop or to firmly mount it to your carrier so it can't be stolen: Clever does what you want it to do. It's one single system that can be used in two ways. The removable option works with a spring clamp. Simply push the two hooks of your basket onto your carrier and fix the spring clamp onto it. The permanent system works with an extra set of hooks that are included in the Clever pack. Mount the extra hooks to the basket and turn the preassembled hooks 180 degrees. Then clasp the four hooks around the diagonal carrier bar and screw the four accompanying bolts firmly in place. Well done, you clever shrew. Now just stow and go.

1. Quick release
2. Permanently mounted

WAT MAAKT ONS CLEVER SYSTEM ZO CLEVER?

Of je jouw Bold mandje nu helemaal vol wilt laden in de winkel, of het liever stevig vast monteert zodat het niet gestolen kan worden: Clever doet precies wat jij wilt. Het is één systeem dat op twee manieren gebruikt kan worden. De afneembare optie werkt met een springveer. Je duwt de twee haken van je mandje simpelweg door de spijlen van je bagagedrager en zet het mandje vervolgens vast met de springveer. Het permanente systeem werkt met een extra set haken - die standaard met het Clever pakket meegeleverd worden. Bevestig deze extra haken aan het mandje en draai de reeds voorgemonteerde haken nu met 180 graden. Steek dan de vier haken door de verticale spijlen van je bagagedrager en draai de vier bijbehorende bouten stevig vast. En klaar is Kees. Gooi die mand nu maar vol.

1. Afneembaar
2. Permanent gemonteerd

WAS MACHT UNSER CLEVER SYSTEM SO CLEVER?

Ob du den Korb bequem mit in den Laden nehmen willst oder fest fixiert am Gepäckträger montiert hast damit er nicht gestohlen werden kann: Clever ist, daß du selbst entscheiden kannst was du willst. Es ist ein System, das auf zwei Arten genutzt werden kann. Die abnehmbare Option wird mit der Federklappe benutzt. Einfach die beiden Haken unter die Gepäckträgerquerstange schieben und mit der Federklappe den Korbfestklemmen. Bei der Festmontage nutzt man das beliegende Set mit zwei weiteren Haken, die man in entgegengesetzter Richtung montiert. Gut gemacht schlauer Fuchs. Jetzt einfach einpacken und los geht's.

1. Abnehmbar
2. Fest montiert

POURQUOI CHOISIR LE SYSTÈME CLEVER DE BASIL?

Si vous aimez prendre votre panier dans le magasin en faisant du shopping ou si vous voulez le monter permanent sur votre porte-bagages enfin d'éviter du vol : le système Clever fait ce que vous préférez. C'est un seul système ce qui peut être utilisé de deux manières. Un panier amovible grâce à deux crochets en combinaison d'un crochet ajustable. Il suffit de placer le panier sur le porte-bagages avec les deux crochets et de l'installer à l'aide du crochet ajustable. Du montage permanent sera possible grâce à deux crochets supplémentaires ce qui sont inclus dans le paquet Clever. Vous installez les deux crochets supplémentaires et vous les tournez 180 degrés, ensuite vous les montez sur la barre transversale du porte-bagages à l'aide des quatre vis et les crochets. Chapeau un panier amovible et/ou permanent : à vous le choix !

1. Amovible
2. Montage permanent

the 1990s, the number of people aged 65 and over in the United States is projected to increase from 20 million to 35 million, and the number of people aged 75 and over from 10 million to 17 million (U.S. Census Bureau 1997).

As the number of people aged 65 and over increases, the number of people aged 75 and over will increase at a faster rate. This is because the number of people aged 75 and over is a smaller percentage of the total population aged 65 and over than the number of people aged 65 and over is of the total population aged 65 and over. For example, if the total population aged 65 and over is 20 million, and the number of people aged 75 and over is 10 million, then the number of people aged 75 and over is 50% of the total population aged 65 and over.

As the number of people aged 75 and over increases, the number of people aged 85 and over will increase at a faster rate. This is because the number of people aged 85 and over is a smaller percentage of the total population aged 75 and over than the number of people aged 75 and over is of the total population aged 75 and over. For example, if the total population aged 75 and over is 10 million, and the number of people aged 85 and over is 5 million, then the number of people aged 85 and over is 50% of the total population aged 75 and over.

As the number of people aged 85 and over increases, the number of people aged 95 and over will increase at a faster rate. This is because the number of people aged 95 and over is a smaller percentage of the total population aged 85 and over than the number of people aged 85 and over is of the total population aged 85 and over. For example, if the total population aged 85 and over is 5 million, and the number of people aged 95 and over is 2 million, then the number of people aged 95 and over is 40% of the total population aged 85 and over.

As the number of people aged 95 and over increases, the number of people aged 100 and over will increase at a faster rate. This is because the number of people aged 100 and over is a smaller percentage of the total population aged 95 and over than the number of people aged 95 and over is of the total population aged 95 and over. For example, if the total population aged 95 and over is 2 million, and the number of people aged 100 and over is 1 million, then the number of people aged 100 and over is 50% of the total population aged 95 and over.

As the number of people aged 100 and over increases, the number of people aged 105 and over will increase at a faster rate. This is because the number of people aged 105 and over is a smaller percentage of the total population aged 100 and over than the number of people aged 100 and over is of the total population aged 100 and over. For example, if the total population aged 100 and over is 1 million, and the number of people aged 105 and over is 500,000, then the number of people aged 105 and over is 50% of the total population aged 100 and over.

As the number of people aged 105 and over increases, the number of people aged 110 and over will increase at a faster rate. This is because the number of people aged 110 and over is a smaller percentage of the total population aged 105 and over than the number of people aged 105 and over is of the total population aged 105 and over. For example, if the total population aged 105 and over is 500,000, and the number of people aged 110 and over is 250,000, then the number of people aged 110 and over is 50% of the total population aged 105 and over.

As the number of people aged 110 and over increases, the number of people aged 115 and over will increase at a faster rate. This is because the number of people aged 115 and over is a smaller percentage of the total population aged 110 and over than the number of people aged 110 and over is of the total population aged 110 and over. For example, if the total population aged 110 and over is 250,000, and the number of people aged 115 and over is 125,000, then the number of people aged 115 and over is 50% of the total population aged 110 and over.

As the number of people aged 115 and over increases, the number of people aged 120 and over will increase at a faster rate. This is because the number of people aged 120 and over is a smaller percentage of the total population aged 115 and over than the number of people aged 115 and over is of the total population aged 115 and over. For example, if the total population aged 115 and over is 125,000, and the number of people aged 120 and over is 62,500, then the number of people aged 120 and over is 50% of the total population aged 115 and over.

About Basil

Driven by your moments of cycle happiness, Basil creates baskets, bags and accessories to accompany a carefree ride in elegant luxury. Combining premium quality, style and functionality, these durable products encourage you to hop on your bicycle as often as you can.

Join the Basil happiness. Spread the cycling joy
