

A close-up, low-angle shot of a bicycle helmet. The helmet is primarily a vibrant blue color with pink accents on the chin strap and side panels. The lighting creates strong highlights and shadows, emphasizing the helmet's aerodynamic shape and the texture of the plastic. The background is a plain, light color.

CREATIVITY AND INNOVATION

SOPHISTICATED TECHNOLOGY

TOP QUALITY MATERIALS

HAND FINISHED TO THE FINEST DETAIL

MADE IN GERMANY

MANUFACTURING IN GERMANY

Within global markets we have created a success story – with products that are Made In Germany. Not just a country of thinkers and theorists, also the home of new ideas and inventors.

Here in Germany, we explore and develop innovative new products, materials and processes. The know-how that ensures the high quality of our products. We strive to maintain this. With enthusiasm and our passion. Every single day of the year.

uvex HELMET TECHNOLOGY ↗

MAXIMUM PERFORMANCE

WITH THE MOST INNOVATIVE uvex HELMET TECHNOLOGIES

PROTECTION
↗ NO FEAR OF FALLS

THANKS TO ULTRA-STABLE SHELL CONSTRUCTION

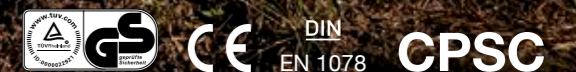

FIT
↗ PERFECT FIT ON EVERY HEAD
THANKS TO THE IAS FIT SYSTEM

COMFORT
↗ KEEP A COOL HEAD
VIA OPTIMUM AIR CIRCULATION

STANDARDS

uvex cycling and inline skating helmets meet the high safety requirements of these standards:

SHELL CONSTRUCTION ↗

HARD OUTSIDE, SOFT INSIDE

Racing a time trial bike against the clock requires different helmet demands from someone testing their limits in the bike park. We develop the optimal helmet construction for every use.

INMOULD
EPS foam is injected into an impact resistant polycarbonate shell. Creates a light, very stable construction.

DOUBLE INMOULD
As well as all the benefits of in-mould construction it offers complete all-round protection, via a second polycarbonate shell, which also protects the outer edges from damage.

HARDSHELL
The helmet consists of an injection moulded outer shell and an EPS inner shell. Provides maximum impact protection and creates a durable helmet.

CARBON
Super-strong carbon layers are laminated by hand. Enables creation of the most aerodynamic shape while remaining extremely light.

SAFETY TESTED ↗

EXTENSIVE LABORATORY TESTS

To guarantee the safety and performance of our products all uvex cycling helmets go through a series of rigorous tests at our in-house test laboratory. We develop helmets which meet the highest quality and safety requirements and simultaneously fulfil the diverse demands of cycling.

STANDARDS TESTED ↗

GUARANTEED SAFE

Safety is the highest priority for us. uvex cycling helmets meet the most stringent international safety requirements for personal protective equipment. Independent test institutes such as TÜV confirm this.

TÜV GS
Certification that the product meets the high requirements of German Product Safety Act (ProdSG).

CE MARKING
Manufacturer or EU importer declaration that, in accordance with EU regulation 765/2008, the product conforms with all EC directives that apply to it.

CPSC (United States Consumer Product Safety Commission)
American standard for cycling helmets.

EN 1078
European standard for bicycle, skateboard and roller skating helmets.

IAS SYSTEM
HEIGHT ADJUSTABILITY

IAS SYSTEM
WIDTH ADJUSTABILITY

IAS – uvex INDIVIDUAL ADAPTING SYSTEM ↗

PUSH, TURN, FIT GREAT

Every head has its own individual shape. For a helmet to fit perfectly it must be adjustable in both width and height. The uvex IAS system does just that. In an instant the helmet can be adjusted, with millimetric precision, to fit your head. A range of IAS fit system versions are available.

IAS | IAS 2.0 | 3D IAS | 3D IAS 2.0 | anatomic IAS | 2k IAS ↗

IAS SYSTEMS OVERVIEW

	Half ring	Full ring	Width adjustment	Height adjustment	Comfort	Ventilation	Weight	Model
IAS		x	x		+	+	+	kid 2, hero, kid 3*, hlmt 5 pro*, air wing, i-vo, city 5, city v*
IAS 2.0		x	x		++	+++	++	quatro junior

* Half ring

FAS STRAP ↗

EASY AND PRACTICAL

FAS, the fast adapting system strap, can be easily and continuously adapted to your own head. The helmet stays firmly on your head at all times and the strap is always in the best position.

MONOMATIC CLOSURE ↗

FIT AT THE PUSH OF A BUTTON

The multistep, anatomically shaped uvex monomatic comfort closure is easy to adjust with one hand. Just press the button. The chin strap always sits perfectly.

AERODYNAMICS AND VENTILATION ↗

FOR A COOL HEAD

As well as perfect fit, great ventilation is vital for helmet performance. Vent position is precisely matched to follow the aerodynamic shape. Guarantees a comfortable head climate.

↗ VENTS

Flow optimised vent openings ensure that no heat is trapped within the helmet. Even in extreme situations your head stays cool.

↗ INDIRECT VENTILATION

Vents connect directly to air channels, which run from front to back, to guarantee permanent ventilation.

PADS ↗

INTERCHANGEABLE LINER

Interior features significantly affect a helmet's comfort. All our pads absorb moisture and are anti-allergenic. Hook and loop fasteners allow easy removal for washing.

BASIC

Functional padding with special antibacterial finish.

X-FIT

High quality, structured material improves ventilation. Removable and washable. Padding has a special antibacterial finish.

VENT

High quality moisture wicking material with embossed ventilation channels. Comfortable and soft on the skin, dries quickly and is antibacterial, removable and washable.

VENT CARBON

Very high quality moisture wicking material has carbon fibres to suppress bacterial growth. Extremely comfortable and soft on the skin. Embossed ventilation channels and perforated pads ensure an optimal helmet climate. Fast drying, antibacterial, removable and washable.

SHELL SIZES ↗

THE RIGHT SIZE FOR EVERY HEAD

No two heads are the same. A choice of sizes is necessary to ensure the perfect fit. uvex cycling helmets come in a wide array of sizes, in order to truly fit every head.

↗ SIZE CHART

BEST VISION IN ALL CONDITIONS

THANKS TO THE MOST INNOVATIVE LENS TECHNOLOGIES

FIT
↗ COMFORTABLE FIT
IN EVERY SITUATION

PROTECTION
↗ 100% PROTECTION
FROM UV RAYS
EVEN AT ALTITUDE

COMFORT
↗ AUTOMATIC LENS
SHADE ADJUSTMENT
WITH VARIOMATIC LENS TECHNOLOGY

uvex PROTECTION TECHNOLOGY ↗

UV light (UVA, UVB, UVC) 380 nm visible light 780 nm

UV PROTECTION ↗

100% PROTECTION FOR THE EYES

UV filters built into the lens material filter 100% of UV rays, up to 400 nm. All lenses provide 100% UVA, UVB and UVC protection.

SCRATCH RESISTANT AND SHATTERPROOF ↗

SAFETY TESTED

uvex sports eyewear undergoes tough stress tests, to guarantee the greatest possible security. Lenses are extremely durable and shatterproof. The special coating, which protects against damage according to standard EN 1836, provides scratch resistance, so vision is not affected in any way.

LENS COLOUR	PROTECTION LEVEL*	RECOMMENDED LIGHT CONDITION				DESCRIPTION
CLEAR	S0		X	X		protects against wind, insects and debris, good vision at night and in the dark
VARIOMATIC SMOKE	S1-S3	X	X	X		automatically adjusts to light conditions
VARIOMATIC LITEMIRROR BLUE	S1-S3	X	X	X		automatically adjusts to light conditions
LITEMIRROR ORANGE	S1		X	X		contrast enhancing
MIRROR GOLD	S3	X	X	X		contrast enhancing, infrared protection
LITEMIRROR SILVER	S3	X	X	X		protection from intense sunlight, reduced infrared protection
MIRROR GREEN	S3	X	X	X		colour-neutral, contrast enhancing, infrared protection
MIRROR BLUE	S3	X	X	X		infrared protection, all day sun protection
MIRROR RED	S3	X	X	X		contrast-enhancing, reduced infrared protection
LITEMIRROR BROWN	S3	X	X	X		contrast enhancing, infrared protection, all day sun protection
LITEMIRROR YELLOW	S1		X	X		extremely contrast enhancing, good in low visibility
POLAVISION SMOKE	S3	X	X	X		eliminates reflections, contrast enhancing
IR BROWN GREEN	S3	X	X	X		extra infrared protection, contrast enhancing, all day sun protection
MIRROR SILVER	S4				X	protects against intense sunlight, not roadworthy
SMOKE	S3	X	X	X		colour-neutral, contrast enhancing

*PROTECTION LEVEL > TRANSMISSION

- S0 > TRANSMISSION 80-100 %
- S1 > TRANSMISSION 43-80 %
- S2 > TRANSMISSION 18-43 %
- S3 > TRANSMISSION 8-18 %
- S4 > TRANSMISSION 3-8 %

RECOMMENDED LIGHT CONDITION

- SUN
- LIGHT CLOUD
- HEAVY CLOUD
- GLACIER

uvex FIT TECHNOLOGY ↗

NOSE PADS AND LEG ENDS ↗

PERFECT HOLD

Soft nose pads and the soft earpieces of uvex eyewear offer optimal, pressure-free wearing comfort, through a soft, dimensionally stable material. Easily cold formable soft legs increase this secure hold.

SOFT
NOSE PADS

COLD FORMABLE
SOFT EARPIECES

uvex COMFORT TECHNOLOGY ↗

EASY TO CLEAN ↗

ALWAYS CLEAR VISION

Sweat, water droplets or dirt – nothing sticks. The special - easy to clean - surface treatment helps keep the lenses clean. So, you always have clear vision, even in extreme conditions.

LITEMIRROR ↗

EXTRA PROTECTION VIA MIRRORED LENSES

Mirrored lenses for fashion and function. The lens coating isn't just trendy, this offers extra protection from infrared light. Harmful IR rays are effectively reflected and kept away from the eyes.

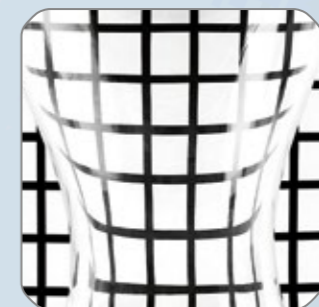

DECENTRED LENS TECHNOLOGY ↗

THE BEST VIEW

No distortion or warping in the field of view for optimal, true and realistic perception. Essential for clear sight – using the latest developments in research, uvex lenses are engineered for the toughest sporting demands. The Class 1 EN 1836 standard injected, decentred optics deliver a completely distortion-free view.

WITH DECENTRING:
DISTORTION-FREE VIEW

WITHOUT DECENTRING:
DISTORTED VIEW

uvex COMFORT TECHNOLOGY ↗

VARIOMATIC ↗

AUTOMATIC LENS SHADE FOR ALL WEATHER CONDITIONS

Now even faster, for greater protection. The latest generation of variomatic lenses react instantly to changing light conditions. Whether sun, cloud or rain, uvex variomatic technology automatically adjusts to the perfect shade. uvex sportstyle 202 race vario and uvex sportstyle 107 vario now come with uvex litemirror blue lens technology.

INTERCHANGEABLE LENS TECHNOLOGY ↗

A LENS FOR ALL EVENTS

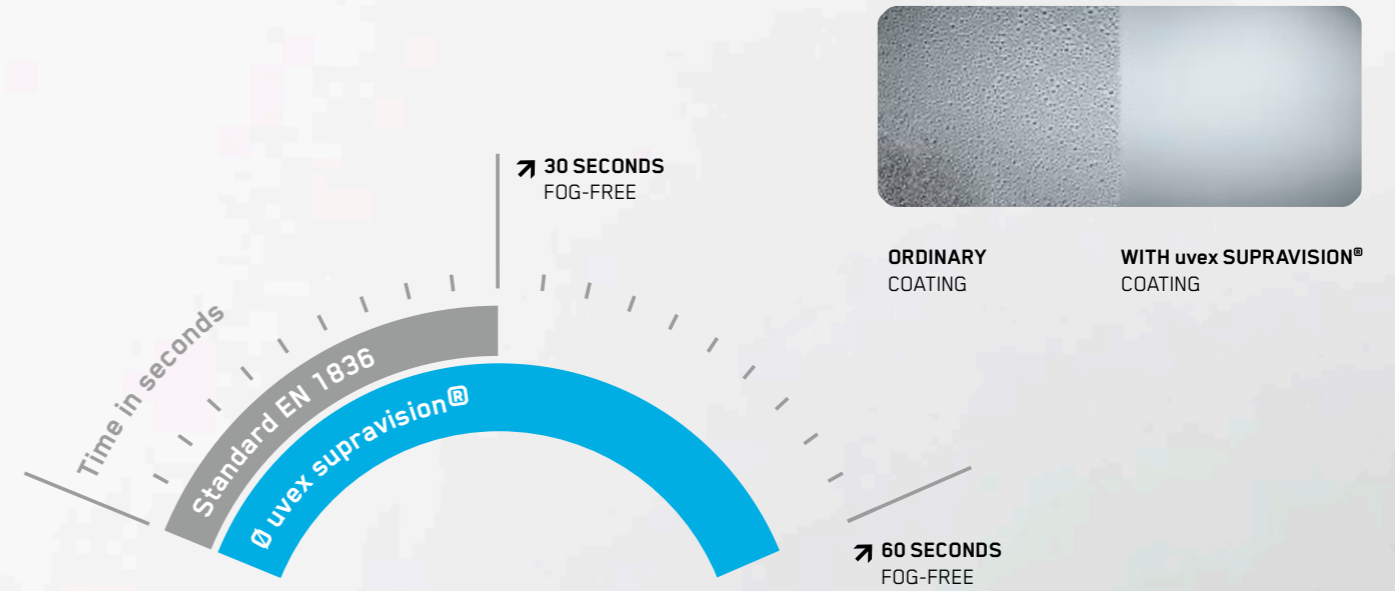

uvex interchangeable lens technology means you can always have the right eyewear with the right lens. Special design makes it very easy to change lenses.

uvex SUPRAVISION® ↗

100% FOG-FREE VISION

Anti-fog coating is a special surface treatment which prevents the lens from fogging up. uvex supravision technology, our anti-fog treatment for eyewear lenses, does not affect the optical quality of the lens. Lens resistance to fogging, according to EN 1836.

DIRECT LENS VENTILATION ↗

DIRECT, DRAFT-FREE LENS VENTILATION

Direct, draft-free lens ventilation guarantees fog-free vision.

↗ DIRECT LENS VENTILATION
