THINGS IN LIFE

BECAUSE ONE DAY

YOU'LL LOOK BACK
AND REALIZE THEY WERE

Big Things

- Kurt Vonnegut -

Hop, there you go

On a school day, a working day or your day off
wind in your hair, the sun on your back
going wherever you want to go
enjoying the moment, while cycling

We encourage you to go uphill
and cheer you on going downhill
because cycling boosts your happiness
and helps us make the world just
a little more beautiful

Basil. Spread the cycling joy

What's new?

Meet Buddy, our new pet basket. But there is also MIK, the easiest way to attach an accessory to your bike. And with Magnolia, Urban Load, Mara XL and Stardust, we've added some more beautiful bags to our collections. Including Sport Design and a new Miles, Bohème and Urban Dry color. Enjoy!

Style

-THE STYLE COLLECTION-

So many people, so many stories. With the Basil lifestyle collection, your bicycle becomes an extension of who you are. Maybe you're a bohemian type, who likes colors. Or someone who feels at home at the office, dressed up in black. Therefore, we bring to you a wide range of stylish bicycle bags, baskets and matching accessories. Meet the Urban Dry and Noir collection; highly fashionable items, 100% waterproof. Just like the new Miles bags. And this year we added the new Magnolia collection to it. Made to fall in love with.

Flowers

-SYSTEMS & INNOVATIONS-

Now that you have chosen the bag or basket that fits your needs and style, you'll want to know: 'How do I attach it to my bike?' Preferably it'd be simple, but above all safe and secure.

Basil can help you with that as well. We have developed a complete collection of innovative mounting systems to attach any basket and any bag to any bike. We are particularly proud of our Universal Bridge System, Multi System Baskets and our new MIK system. Try and discover the Basil effect.

We wish you a pleasant ride.

Basil **E-Bike perfect**

10% of all cycle journeys are now completed by E-bike?

bicycle use has increased since 2005, and this is at least partly thanks to the increasing popularity of E-bikes?

the most significant increase in bicycle use has been for leisure and commuting?

DID YOU KNOW THAT:

cycle journeys via E-bike are around 1½ times longer than journeys travelled by standard road bike?

E-bikers can commute about twice the distance of those using ordinary pedal bikes?

travel to work by those under 50 accounts is increasing?

WE ARE MADE FOR EACH OTHER

They have become increasingly popular. Because they are full of energy. That's why we love them too. Yes, we're talking E-bikes here. Cycling joy in an electrifying way. And you know what? Most of our products and systems seem to be made for E-bikes. They fit like a glove. Like our beautiful bags. Many of them 100% waterproof. Or, bags that are not too big. To give you enough space when cycling. Or, a bag that's easy to detach when arriving at the office or train. And for all these bags (and baskets too) we have mounting systems to attach them perfectly to your e-bike. That's why we call these bags and systems **E-bike perfect**, marked with a special icon. And what about our other products and systems? Well, most of them also fit to your E-bike. They are called **E-bike suitable**.

Basil 100% waterproof

With the Magnolia, Urban Dry, Miles and Noir bags Basil has introduced a unique line of bags to the market. The bags have been developed in such a way that your things stay dry even during heavy downpours¹, without any concession to the look of the bags. Basil once again proves that fashion and function can indeed go hand in hand.

Magnolia series

Flowers make your day

The Basil Magnolia series put a smile on everyone's face. Even when it rains, because: 'no rain, no flowers'. The Basil Magnolia series meet the high IPX3 standard², therefore, they are 100% waterproof. The Magnolia collection is full of (cycling) joy.

Miles series

Waterproof on the road

Made for people who go for the sheer enjoyment of cycling, maybe on a cycling holiday or a relaxed ride on a Sunday afternoon. The bags have no visible seams and are waterproof in accordance with the high IPX3 standard. Not a drop of water will get to the contents of the bag.

Urban Dry series

Enjoy every ride

The Urban Dry series is where style and function meet in sublime fashion. The business bag, the shoppers and the double bag from this series are waterproof, so your expensive laptop and smartphone stay bone-dry during a downpour.

Noir series

Stylish black for fashionistas

The Basil Noir series is perfect for fashion-conscious women who enjoy the effervescent city life. Should they get caught in the rain, no worries. The Basil Noir bags meet the high IPX3 standard², so 'waterproof' is genuinely a watertight promise.

Note: the level of water resistance is partially dependent on the following factors: the intensity of the exposure to water, the load carried in the bag(s), the drying time between the exposures to water and the age of the bag. For a further explanation about waterproof see page 105.

¹ Applies to the main compartment of the bag

² With the exception of the Noir double bag and the Magnolia carry all bags, which complies with IPX2

³ Definition: in this type of rain you are soaked to the skin in seconds

Basil Universal Bridge System

Basil has developed the Universal Bridge system, so you are able to quickly and easily remove your double bag or trunkbag from your luggage carrier. By means of eight openings the Universal Bridge system is easy to install on your luggage carrier. This system is compatible with all luggage carriers including e-bikes, MIK, Racktime and i-Rack/Carrymore. It's all in the name: Universal!

Basil Hook On System

This innovative system, including the Basil Hooks, is a feature on all of Basil's new luxury bags. The hooks are width-adjustable for the best possible positioning on the luggage carrier, which makes the bags suitable for use on Basil front carriers too. The locking system with its green flag provides extra security to prevent loss. Also suitable for E-bikes. For tubes up to 16 mm Ø.

Basil Hook On System in **zipper pocket**

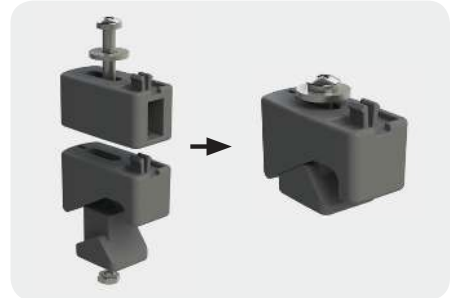

How do you turn a bicycle bag into a fashion accessory? The answer is the zipper pocket, invented and introduced by Basil. the hook on system can be hidden away in the zipper pocket, transforming the bicycle bag into a 'normal' shoulder bag in the blink of an eye.

Basil WSL System

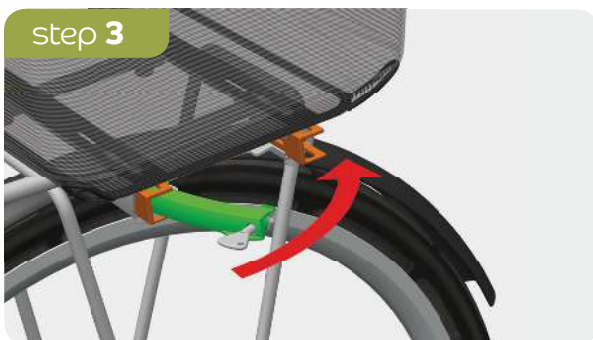

The patented WSL system ensures perfect mounting of our basket. The system consists of 4 ingenious feet that allow the basket to be mounted onto a wide range of luggage carriers in a safe and stable manner. The system is universal, the width and length can be adjusted, it fits onto various diameters of luggage carrier frames, it can be used in conjunction with batteries in the luggage carrier (E-bikes). Optional: it can be supplied with heightening elements that also allow the basket to be fitted onto carriers with raised fronts or backs.

Basil BasSolid System

This system allows baskets to be fixed firmly to the luggage carrier with one easy move. It fits on E-bikes, includes a lock for extra security and comes with heightening elements for bikes with back lights that are higher than the luggage carrier. The following baskets are equipped with the Bassolid system: Cento BasSolid, Catu for luggage carriers 11-18 cm width.

Basil **Clever System**

What makes our Clever System so clever?

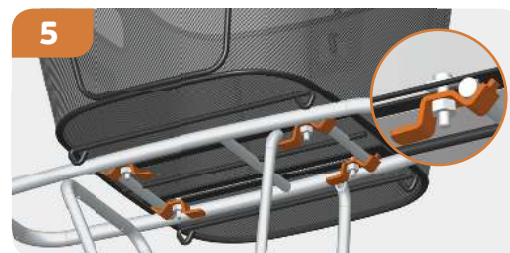

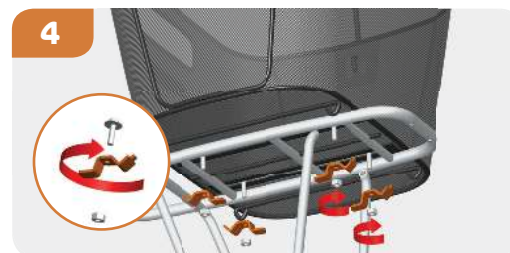

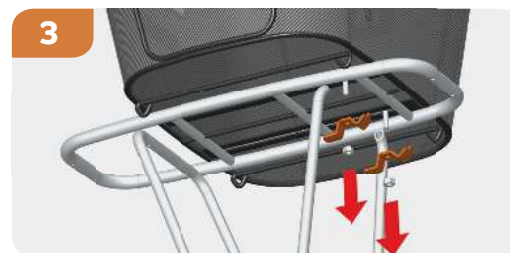

Whether you want to conveniently take your Bold or Capri Rattan look basket with you into a shop or to firmly mount it to your carrier rack: Clever does what you want it to do. It's one single system that can be used in two ways. The removable option works with a spring clamp. Simply push the two hooks of your basket onto your carrier and fixate the spring clamp onto it. The permanent system works with an extra set of hooks that are included in the Clever pack. Mount the extra hooks to the basket and turn the pre-assembled hooks 180 degrees. Then clasp the four hooks around the diagonal carrier bar and fasten the four accompanying bolts firmly in place. Well done, you clever shrew.

BasEasy System

For removable bags and baskets

Basil has developed a variety of holders for safely and securely mounting removable baskets on the handlebars. Different mounting points, and possible 'obstacles' such as a child's seat, have been taken into consideration. The different types of flexible BasEasy holders make it possible to mount a basket on every type of bicycle, including mountain bikes, folding bikes and E-bikes. In addition, the innovative Carrier Rack enables any bag with equipped with a Hook On System, such as shoulder bags, shopping bags and laptop bags, to be carried on the front of the bicycle.

Basil BasEasy System 1

handlebar/stem holder economy version

Durable, easily mountable holder for handlebar stems from 22 – 25.4 mm Ø.

BasEasy System 2

handlebar stem holder/head tube holder luxury version

Designer holder for mounting on handlebar stem or head tube. Extendable in three positions, allowing a basket to be fit even on bicycles with a child's seat or a long Ahead. Standard delivery with stainless steel bands suitable for tubes from 22 – 26 mm Ø. Additional stainless steel bands are available for tubes from 26 – 40 mm Ø.

Basil BasEasy System 3 handlebar holder

E-BIKE PERFECT

The state of the art BasEasy Handlebar Holder for all of our removable bicycle baskets and handlebar bags has a beautiful design and excels in modern functionality: quick fitting, suitable for steering tubes from 22 to 31.8 mm Ø. The angle can be adjusted and the holder has an extra lock on the stem and/or extender, which makes it one of the most stable ones on the market. What is unique is that by using the parts supplied the patented holder can also be combined with E-bike operating displays, such as the Bosch® display.

Two Piece **Head Tube Holder**

The head tube holder is the traditional method for mounting a basket on a bicycle. However, it requires disassembling the handlebars and cables. Basil has developed a clever solution by means of the patented two part head tube holder. The holder is easy and quick to install, and it's still safe and stable. Included with Boston XL. Available in two sizes: 22 mm and 25.4 mm Ø.

Basil **Crate Mounting Set**

Usually, crates are fixed to the front carrier by means of tie-wraps. Besides looking messy, it's also unstable. Which is why Basil has developed this crate-mounting set, consisting of three clamps which attach the crate to the carrier while remaining practically invisible.

BASIL BASSOLID SYSTEM

removable system

There are many types of luggage carriers, all differing in width, length, heightening elements, tube diameters, tube shapes, etc. And each year many new versions are introduced. Would it not be ideal if there were one system that could deal with (nearly) every luggage carrier... There is good news: such a system exists! Our (patented) BasSolid system has been designed in such a way that it is adjustable in width, suits 6-20 mm Ø tube diameters and even fits tapering carriers with heightened backs. The system is pre-mounted and needs to be adjusted to the carrier width only once. A smartly designed handle activates a clever lever mechanism which allows the baskets to be clipped to a carrier quickly, firmly and 'blindly'. In addition, the system is provided with a lock. Baskets Catu, Cosa and Cento are equipped with the Basil Clever System. The system has been TÜV approved.

Er bestaan veel soorten bagagedragers die allemaal van elkaar verschillen in breedte, lengte, verhogingen, buisdikten, vorm van de buizen, enz. Elk jaar komen er bovendien vele nieuwe uitvoeringen bij. Het zou ideaal zijn als er één systeem bestond dat met (bijna) elke drager raad weet. Goed nieuws, want dat systeem bestaat! Ons (gepatenteerde) BasSolid-systeem is zo ontworpen dat het instelbaar is in breedte, geschikt is voor buizen van 6-20 mm Ø, en ook past op taps toelopende dragers met een verhoogde achterzijde. Het systeem is voorgemonteerd en hoeft alleen maar (éénmalig) even te worden afgesteld op de breedte van de drager. Met een fraai vormgegeven hendel wordt een slim hefboommechanisme in werking gezet, waardoor de manden snel, stabiel, en 'blind' op een drager worden geklikt. Bovendien is het systeem ook nog voorzien van een slot. De manden Catu, Cosa en Cento zijn uitgerust met het BasSolid-systeem. Het systeem is TÜV-gekeurd.

Es gibt viele Arten von Gepäckträgern, die alle mit Bezug auf Breite, Länge, Erhöhungen, Rohrdicken, Form der Rohre usw. unterschiedlich sind. Und jedes Jahr kommen viele neue Ausführungen hinzu. Es wäre ideal, wenn es ein System gäbe, das für (fast) jeden Gepäckträger geeignet ist... Die gute Nachricht ist: dieses System gibt es! Unser (patentiertes) BasSolid-System ist so konstruiert, dass es in Breite verstellbar ist, geeignet ist für 6 bis 20mm Ø Rohre, auch für konisch zulaufende Träger mit einer erhöhten Rückseite. Das System ist vormontiert und braucht nur (einmalig) kurz auf die Breite des Gepäckträgers eingestellt zu werden. Mittels eines schön gestalteten Bedienungshebels wird ein intelligenter Mechanismus in Gang gesetzt, wodurch die Körbe schnell, stabil und problemlos auf den Gepäckträger "geklickt" werden. Das System ist außerdem noch versehen mit einem Schloss. Die Körbe Catu, Cosa und Cento sind mit dem BasSolid-System ausgerüstet. Das System ist TÜV geprüft.

Il existe une grande variété de porte-bagages, tous différents en termes de largeur, longueur, surélévation, diamètre et forme des tubes... Et de nouveaux modèles apparaissent tous les ans. Idéalement, il faudrait un système qui puisse être utilisé avec la (quasi-)totalité des supports. Eh bien, ce système existe! Notre système (breveté) BasSolid-système est réglable en largeur, prévu pour des tubes de 6 à 20 mm Ø, et peut être utilisé avec des porte-bagages coniques et surélevés à l'arrière. Le système est monté dans la production, et ne demande plus qu'un seul réglage en fonction de la largeur du support. Un levier, très esthétique, permet d'enclencher un astucieux mécanisme de levier, grâce auquel les paniers sont encliqués rapidement sur le porte-bagages et y restent stables. De plus, le système est pourvu d'une serrure. Les paniers Catu, Cosa et Cento (non-amovibles) sont équipés du BasSolid-système. Le système est homologué TÜV.

QUICK RELEASE

PERMANENTLY MOUNTED

CLEVER-SYSTEM

removable system

WHAT MAKES OUR CLEVER SYSTEM SO CLEVER?

Whether you want to conveniently take your Bold basket with you into a shop or to firmly mount it to your carrier so it can't be stolen: Clever does what you want it to do. It's one single system that can be used in two ways. The removable option works with a spring clamp. Simply push the two hooks of your basket onto your carrier and fix the spring clamp onto it. The permanent system works with an extra set of hooks that are included in the Clever pack. Mount the extra hooks to the basket and turn the preassembled hooks 180 degrees. Then clasp the four hooks around the diagonal carrier bar and screw the four accompanying bolts firmly in place. Well done, you clever shrew. Now just stow and go.

1. Quick release
2. Permanently mounted

WAT MAAKT ONS CLEVER SYSTEM ZO CLEVER?

Of je jouw Bold mandje nu helemaal vol wilt laden in de winkel, of het liever stevig vast monteert zodat het niet gestolen kan worden: Clever doet precies wat jij wilt. Het is één systeem dat op twee manieren gebruikt kan worden. De afneembare optie werkt met een springveer. Je duwt de twee haken van je mandje simpelweg door de spijlen van je bagagedrager en zet het mandje vervolgens vast met de springveer. Het permanente systeem werkt met een extra set haken - die standaard met het Clever pakket meegeleverd worden. Bevestig deze extra haken aan het mandje en draai de reeds voorgemonteerde haken nu met 180 graden. Steek dan de vier haken door de verticale spijlen van je bagagedrager en draai de vier bijbehorende bouten stevig vast. En klaar is Kees. Gooi die mand nu maar vol.

1. Afneembaar
2. Permanent gemonteerd

WAS MACHT UNSER CLEVER SYSTEM SO CLEVER?

Ob du den Korb bequem mit in den Laden nehmen willst oder fest fixiert am Gepäckträger montiert hast damit er nicht gestohlen werden kann: Clever ist, daß du selbst entscheiden kannst was du willst. Es ist ein System, das auf zwei Arten genutzt werden kann. Die abnehmbare Option wird mit der Federklappe benutzt. Einfach die beiden Haken unter die Gepäckträgerquerstange schieben und mit der Federklappe den Korbfestklemmen. Bei der Festmontage nutzt man das beiliegende Set mit zwei weiteren Haken, die man in entgegengesetzter Richtung montiert. Gut gemacht schlauer Fuchs. Jetzt einfach einpacken und los geht's.

1. Abnehmbar
2. Fest montiert

POURQUOI CHOISIR LE SYSTÈME CLEVER DE BASIL?

Si vous aimeriez prendre votre panier dans le magasin en faisant du shopping ou si vous voulez le monter permanent sur votre porte-bagages enfin d'éviter du vol : le système Clever fait ce que vous préférez. C'est un seul système ce qui peut être utilisé de deux manières. Un panier amovible grâce à deux crochets en combinaison d'un crochet ajustable. Il suffit de placer le panier sur le porte-bagages avec les deux crochets et de l'installer à l'aide du crochet ajustable. Du montage permanent sera possible grâce à deux crochets supplémentaires ce qui sont inclus dans le paquet Clever. Vous installez les deux crochets supplémentaires et vous les tournez 180 degrés, ensuite vous les montez sur la barre transversale du porte-bagages à l'aide des quatre vis et les crochets. Chapeau un panier amovible et/ou permanent : à vous le choix !

1. Amovible
2. Montage permanent

Basil Waterproof

Explanation of waterproof:

- Meets IPX3, with due observance of the applicable IP Code (IEC 60529)
- IPX 3 applies to the main compartment of the bags.
- Sharp objects may have a negative effect on the water resistance of the materials used.
- Condensation may be the cause of items inside the waterproof inner bag feeling damp. For this reason electronic equipment must always be packed in a separate waterproof cover.
- The level of water resistance was determined on the basis of normal use with a maximum load of 10kg per main compartment. A maximum of 2.5 kg applies to the handlebar bags.
- The water resistance cannot be guaranteed if the flap and any roll top closures of the bag are not overlapped and closed properly.
- Bags must be dried carefully after every exposure to rainwater.
- In general terms, the effects of the weather will gradually reduce the water resistance of fabrics. We recommend periodically treating the bags with an appropriate, water-repelling spray.

The publicity photos contained in this brochure have been specially staged for this new Basil collection. In daily traffic, you must comply with traffic regulations at all times.
