

HAMAX
CHILD BICYCLE SEAT

SCANDINAVIAN **SAFETY**

Hamax is one of the world's leading suppliers of child bike seats. We were established in 1958 and our headquarters are located in Norway. One of our main goals is to protect what is most precious to us: our children.

We aim at developing and supplying child bicycle seats of premium quality, where safety is our priority number one.

Find out more at www.hamax.com

HAMAX 3

HAMAX CARESS

– ride with elegance and style in an urban way

The Hamax CARESS was immediately embraced by the market when introduced. A unique design and exciting new product features contributed to making CARESS the proud receiver of the Red Dot Product Award and the Taipei Cycle Gold Award for 2013.

SAFETY & COMFORT

- Our top model – both in look and feel
- Adjustable seat back system to regulate height
- Adjustable sleeping position (20°)
- Changeable padding
- Footrest system – can be adjusted one-handed
- Harness system with shoulder paddings – for better comfort and an easier fit
- Reflective in the back for improved visibility
- May be fitted to bikes with or without luggage carriers
- For children above the age of app. 9 months and weighing up to 22 kg
- Safe and simple to fit
- Two different ways to attach the seat to the bicycle – either with a lockable bracket or with a carrier adapter

HAMAX 5

HAMAX
CARESS
 COLLECTION

HAMAX ZENITH

The "Allrounder" – a combination of safety and design

- Adjustable footrests
- One-hand operated harness, buckle and footrests
- Changeable padding
- Reflector in the back for improved visibility
- For children above the age of approx. 9 months and weighing up to 22 kg
- Safe and simple to fit
- Can be mounted with a carrier bar and bracket or with a carrier adapter

HAMAX ZENITH RELAX

With reclining function (12,5 °)

- Adjustable footrests
- One-hand operated harness, buckle and footrests
- Changeable padding
- Reflector in the back for improved visibility
- For children above the age of approx. 9 months and weighing up to 22 kg
- Safe and simple to fit
- Can be mounted with a carrier bar and bracket or with a carrier adapter

HAMAX ZENITH with bar and bracket

HAMAX ZENITH RELAX with bar and bracket

HAMAX ZENITH with carrier adapter

HAMAX ZENITH RELAX with carrier adapter

HAMAX AMAZE

The Hamax Amaze has an elegant design and an extra comfortable, thick padding. The seat is reclinable and the free hanging steel bar offers natural suspension for the child during the ride. Harness, buckles and footrests are one-hand operated.

- Reclining function (12,5°)
- Adjustable footrests
- One-hand operated harness, buckle and footrests
- Changeable, waterproof and a very comfortable padding
- Reflector in the back for improved visibility
- For children above the age of approx. 9 months and weighing up to 22 kg
- Safe and simple to fit
- Can be mounted with a carrier bar and bracket

HAMAX OBSERVER

- be close to your child on the first bicycle trips

Observer is a front mounted seat, which allows you to take your youngest child biking in a safe and comfortable way from an early age.

- For children from 9 months to 15 kg
- Wind screen for protection against wind, rain and insects when bicycling (accessory)
- One-hand operation of harness and foot rests
- Compact - providing enough space for the parent to cycle and step down between the saddle and the front seat
- Design in line with the Caress rear mounted seat
- An innovative bracket ensures easy attachment/removing of seat and wind screen
- An a-head/threadless bracket is also available

HAMAX OBSERVER front seat

Bracket

A-head bracket

A solid fastening bracket is mounted to the handlebar tube. The Observer front seat can then be attached to the bracket ("click"). When you press the release button, the seat is easily removed from the bicycle. The wind screen (accessory) can be attached and removed in the same way.

HAMAX *- Hamax Safety System* CARRIER ADAPTERS

The carrier adapters make the Hamax rear seats even more available, as they now will fit almost all bicycles. Already the seats may be mounted with a freely hanging carrier bar. For the increasing number of e-bikes, and for other bikes with frame diameters outside 28-40 mm, the Hamax carrier adapter is an excellent choice.

Caress Carrier Adapter:

- Enables the seat to be mounted on the existing carrier
- Lockable
- Suitable for e-bikes
- Carriers should be approved to carry 25-30 kg
- Integrated suspension for maximum comfort for the child
- Facilitates the reclining function
- Fits carriers from 120 – 180 mm
- Carrier tube diameters 10-20 mm
- Easy mounting

Zenith Carrier Adapter:

- Enables the seat to be mounted on the existing carrier
- Suitable for e-bikes
- Carriers should be approved to carry 25-30 kg
- Fits carriers from 120 – 180 mm
- Carrier tube diameters 10-20 mm
- Easy mounting

HAMAX - Hamax Safety System FASTENING BRACKET

All Hamax rear-mounted child seats may be secured to the bike by using the patented fastening bracket. The seat is then fixed to the bike with a freely hanging carrier bar, and fits bikes both with and without a luggage carrier.

- Spring-loaded locking device, you will hear a click when it is safely locked
- Green indicators will appear when the seat bars are correctly mounted
- Fits almost all types of bikes and frame diameters of 28-40 mm.
- Ensures an even distribution of forces onto the tube, not to cause any deformation
- Simple mounting – only four screws
- The bracket can be placed between cable bosses to avoid conflict with the gear wire on the tube
- Quick release system; just press the front of the bracket to disconnect the seat from the bike
- The fastening bracket is available in 2 versions; standard and lockable. The lockable bracket allows you to lock the seat onto the bicycle, thereby reducing the risk of theft.
- An extra fastening bracket may be purchased in order to switch the child seat between two different bikes.

HAMAX CHILD BICYCLE HELMETS

Hamax is introducing a range of children's helmets under the Hamax brand. The helmets go well with our seats and trailers, and can also be used for children cycling on their own. The Thundercap is a completely new development, with a cool design, magnetic lock and fresh colours.

Hamax is also supplying helmets from Etto, a renowned Scandinavian brand with long traditions within helmet development and production. An excellent choice for the little ones!

Thundercap

- Inmold
- Magnetic lock
- Full cover shell
- Reflector
- PSS5 adjustable neck strap
- Good ventilation
- Appealing colours and design

Material: Polycarbonate/EPS inmolded
Size: 47-51/52-57 cm
Weight: 227/242 g

Skydive

HAMAX ACCESSORIES

Not only safe & secure - also comfortable!

Hamax offers a wide range of accessories in order to make the ride as comfortable as possible in all kinds of weather conditions.

Rain poncho

The poncho fits around the child bike seat and has a large hood with space for a helmet. The rain poncho is waterproof and windproof, yet breathable, so the child remains dry and in bad weather. A convenient chest pocket serves as a storage bag when the poncho is not in use.

Neckroll

A neck cushion has been specially designed to fit into the safety harness on the Hamax child bike seats. It provides good support for the child's neck and contributes to maximum comfort during the ride.

Rain cover

The Hamax rain cover protects the seat from rain and wind when not in use. An improved elastic band secures a perfect fit.

Wind screen for Observer

The wind screen fits easily into the fastening bracket of the Observer front seat, and protects the child against wind, rain and insects when riding. At the same time, the child has a great view of the road ahead!
