2016 CYCLE PRODUCTS

# POLISPORT GROUP

At Polisport we are deeply committed with the task of delivering high quality cycling products. That's why we are progressively increasing our role in the process.

Keeping the complete product cycle in-house means a better control of quality and cost. In the end, it means delivering a product we can fully trust. That's our mission and also a great pleasure.

## QUALITY CONTROL

Quality control, performance analysis and safety tests are the most important part of product development. The legal requirements and the industry standards are high. Being a step ahead, means we have built our own modern quality center with all the technology required to make sure that our products meet the mandatory standards of certifying labels.

More than that, having our own quality center highlights we can keep developing and testing innovative solutions for our products.

The highest standards are here.

# SAFETY, COMFORT & DESIGN

## BABY-SEAT MOUNTING SYSTEM

### FRAME MOUNTING SYSTEM - FF

Polisport's Frame Mounting System was developed to be safe, simple, reliable, efficient and easy to use.

The double rabbet and click system has a very smooth action when mounting the baby-seat, sliding easily into the slots and requiring no further pressure than the weight of the seat.

At Polisport, we do care about bicycles: a mounting system has been developed in order to avoid scratches on the frame.

Inside the holder a rubber pad protects the bicycle and allows

the mounting system to adapt to frames of all different (Ø 28-40) sizes.

The rear part of the frame mounting system has an opening to allow the cables to fit in without getting pinched.

It takes only a light push of the button to release the baby-seat.

### CARRIER MOUNTING SYSTEM - CFS

Polisport's Carrier Mounting System was developed to take advantage of bikes equipped with luggage carriers.

Mounting the baby-seat to the luggage carrier is very simple and effective.

The bottom of the seat is tightly attached to the carrier.

This is extremely important as it increases stability for the rider.

The CFS system, which uses QST technology, does not require any tools to mount or remove the seat; so it's easy to transfer it from one bicycle to another.

The Carrier Mounting System can also be moved backward and forward to adjust to any bike.

### RACK MOUNTING SYSTEM - RMS

The baby-seats with carrier mounting systems are still the most practical as they allow a fast, simple and safe installation. Now, the RMS has been made simpler; In this solution, the mounting system is supplied with the baby-seat, requiring fewer steps to complete the installation.

Once the base is firmly attached to the carrier, the seat is fixed or removed with just a twist from a screw. The system meets all the safety standards (EN 14344). When riding without the seat on, the base doubles as a practical object carrier with the help from its straps.

### NEW CARRIER MOUNTING SYSTEM

Groovy is an entirely new baby-seat which offers a new fresh design; its functional features were also improved withal. Groovy carrier version features a new carrier plate. Its new optimized system allows you to install and remove the seat in a breeze without requiring any tools. Featuring also a left and

right mechanical system - the new Quick Safety Turn button was redesigned - now it's even easier to install and release the seat (clamp - turn left; release - turn right). This new carrier plate will also fit wider carriers - maximum width for the CFS plate - 185mm.

# SAFETY, COMFORT & DESIGN

BABY-SEAT PERFORMANCE COMPONENTS

## NEW ONE HAND BUCKLE

Groovy features an improved sturdy buckle that you can operate with one hand – this way it's quite easier for you to buckle and un-buckle. Nevertheless due to its design the child will not be able to release it on its own.

## HARNES BUCKLE

Polisport designed its own harness buckles. The design of the buckle requires three buttons which have to be pushed simultaneously in order to unbuckle.

## QUICK SAFETY TURN - QST

QST is a special designed screw with a safety button that allows immediate adjustments to the positioning and assemble of the seat while offering a totally safe and tight mounting. With QST you don't need to use any tools.

## EASY SLIDE SYSTEM - ESS

Polisport has developed the Easy Slide System. On baby-seats equipped with this solution, it is possible to move the seat backward and forward without using any tools. Its simplicity makes it easier to adjust and move the child while seated.

## RECLINABLE SYSTEM - RS

This reclining system allows a movement of up to 20° to help each child to find his/her favorite position.

## GUPPY® JUNIOR

CFS carrier mounting system  
Easily fixed to the carrier. No tools required. Quick release of the baby-seat using the QST screw.

### MODEL

GUPPY JUNIOR seat

### MOUNTING

Carrier in accordance with EN 14872

For carriers not wider than 175mm (carrier not included)

### CHILD WEIGHT

22 to 35 Kg

### SEAT WEIGHT

3,31 kg / 7,30 lb

### SEAT DIMENSIONS

Width 394 x height 563 x depth 435

### SAFETY

Pair of footrests that can be easily mounted on the frame at the correct height according to the children's size.

Security belt: Guppy Junior comes with one security belt and extra safety harness to be strapped to the bicycle frame and a lap belt for the child.

### COMFORT

Ergonomic shape for back support.

Soft and washable cushion.

### OTHER FEATURES

Quick safety turn (QST) - no tools needed: easy assembling of the baby-seat on the carrier. Guppy Junior is supplied fully assembled and can therefore be used straight out of the box. The seat can also be moved back and forth to be adjusted to any carrier and child size.

new

### NEW CARRIER MOUNTING SYSTEM

New optimized system allows you to install and to remove the seat in a breeze without requiring any tools.

Also featuring a left and right mechanical system, the new Quick Safety Turn button was redesigned – making it easier to install and to release the seat. It will also fit wider carriers: maximum width – 185mm.

### IMPROVED SAFETY HARNESS / BUCKLE

Groovy features a new and optimized safety harness, as well as an improved sturdy buckle that you can operate with one hand.

The seatbelt is height adjustable in 3-points.

# groovy

## The new trendy baby-seat

Groovy is an entirely new trendy baby-seat. It has a fresh and ergonomic design and the arm rest shape provides additional comfort for children.

Groovy also offers integrated foot protection, increased lateral protection, a large reflective sticker and it is compatible for helmet use. All providing additional safety for the child.

So comfortable!  
So Groovy!

## BOODIE<sup>RMS</sup>

**RMS rack mounting system**  
RMS mounting system is supplied with the  
seat. Once the base is firmly attached to the  
carrier, (mounting kit included) the seat is fixed or  
removed with just a twist from a screw.

**MODEL**  
BOODIE **RMS**

**MOUNTING**  
Carrier in accordance with EN 14872

**CHILD WEIGHT**  
9 to 22 kg / 19,84 to 48,5 lb

**STANDARDS**  
EN 14344

**SEAT WEIGHT**  
2,25 kg / 4,96 lb

**SEAT DIMENSIONS**  
Width 398 x height 756 x depth 344

**SAFETY**  
3-point safety harness. Adjustable  
safety harness. Extra security frame belt.  
Large feet protection and retention.  
1 rear reflective sticker.

**COMFORT**  
Ergonomic shape for helmet use. Adjustable  
footrests in 4 positions.

**OTHER FEATURES**  
RMS mounting system is supplied with the  
seat, requiring fewer steps to complete the  
installation.

Mounting: Once the base is firmly attached  
to the carrier, the seat is fixed or removed  
with just a twist from a screw. Straps  
included: when riding without the seat on,  
the base doubles as a practical object carrier  
with the help from its straps. UV resistant.  
Mounting kit included.

ref.

**8622500001** - black

## MICHIGAN FRONT DOWNTUBE MUDFLAP

### MOUNTING

on downtube (Ø maximum 75mm)

### WEIGHT

81gr / 0,18 lb

### OTHER FEATURES

Ideal for city and hybrid bikes, Michigan mudflap offers you an excellent protection, even on rough terrain. The mudguard uses elastomeric straps to be mounted on the downtube and allows a fitting in all regular frame tubes. Easy mounting - no tools required for mounting the mudguard. Material: polypropylene. 100% recyclable material.

ref.

**8622400001** - black

## MICHIGAN REAR MUDGUARD

### MOUNTING

28" wheels

### WEIGHT

180gr / 0,4 lb

### OTHER FEATURES

Designed to road bikes - slim fit. Clips onto seat post. Fits tubes from Ø24 to Ø36. Easy mounting - no tools required for mounting the mudguard with the usage of the clever "Quick Mounting & Release System". 1 point height adjustable for a better fit. Material: polypropylene. 100% recyclable material.

ref.

**8622300001** - black

The mudguard can be fitted to almost any seat post and be optimally adjusted to the wheel using the 1 point of adjustment.

### QUICK RELEASE SYSTEM

## GEORGIA - SET REAR + FRONT MUDGUARDS

**MOUNTING**  
26" / 28" wheels (set)

**WEIGHT**  
293 g / 0,65 lb

### OTHER FEATURES

Nose at the front and Spoiler at the rear for an optimal protection. The Mudguard length ensures that you, and also the cyclist behind you, are spared from splashing. This mudguard ensures stable mounting via its U 3 millimeters stainless steel and offers the best protection by covering almost the entire wheel. The "U steel Stays" keep the mudguard rigid. Georgia can easily be mounted on almost any racing bike and perfectly adapted to the radius of the wheel by adjusting the length of the stays. Mounting Kit Included.

## O.E CHAIN CASE

Front and rear fitting  
Two pieces chain case

### MOUNTING

city bikes

### WEIGHT

551 g / 1,21 lb

### OTHER FEATURES

Fully made of resistant yet lightweight polypropylene, the two combined parts are simply snapped together with the small clips installed all around. This system also eliminates the glide noises.

Our chain case allows an easy maintenance and access to the chain since you can un-clip the front part without using any tools.

Accommodates larger chain rings (up to 44 teeth).

The Chain Case is secured to the bike frame using two special metal parts, which are available in different sizes and shapes so that you can easily adapt the chain case position in relation to the line of the chain.

Customizable for OEM clients: Now, with the use of IPD, Inmold Plastic decals, it can also be stylish, with a durable and scratch resistant decoration. As an OEM part, it can be customizable with any kind of graphic, allowing vivid colors an empowering your brand image. Material: polypropylene. 100% recyclable material. Mounting Kit Included.

# TARGETS OEM WITH CUSTOMIZABLE CHAIN CASE

This product was designed bearing in mind customization. By applying bespoke graphics, it can be ordered by bicycle manufactures to be used as OEM, or by retail brands to become an exclusive product.

# INFINITE DECORATIONS POSSIBILITIES FOR YOUR BRAND.

## IPD INMOLD PLASTIC DECALS

Is the name of the exclusive technology Polisport is bringing up to bicycle plastic parts. This technology has been used for years by this company which also makes plastic parts for off-road motorbikes.

Tested with success in tough racing conditions, this is a decoration process which fuses graphics onto plastic parts as a stronger alternative to decals. As a result, graphics don't fade, peel crack, come off the plastic or lose color. This technology is an added value for bicycle manufacturers as it opens possibilities for customization.

Besides the use of this patented and exclusive technology, the plastic parts are available in any imaginable color and thus allowing you to make beautiful color combinations.

**customizable areas dimensions:**  
 front mudguards - 604,51 x 266 mm  
 rear mudguards - 914,51 x 266 mm  
 chain case - 494,09 x 194,33 mm

## SLEEVE TECHNOLOGY

AMAZING GRAPHICS  
GREAT PROMOTIONAL POTENTIAL

### SLEEVE BOTTLES

Photographic resolution full 360° decoration vibrant colors

Customizable box

Customizable headcard

To enhance the potential customization of water bottles, Polisport presents a brand new product. Sleeve technology allows full 360° decoration with vibrant colors and photographic definition. The quality and flexibility of the bottle is not affected by the graphics and its customization is low-priced. Sleeve technology from Polisport can boost the promotional use of water bottles by cycling teams or companies.

- Full bottle decoration.
- Photographic resolution and vibrant colors.
- EFSA and FDA approval as suitable for food contact.
- Complies with EN 71-1,2,3 and Regulation 10/2011.

#### STEPS TO MAKE YOUR SLEEVE BOTTLE

## ENVIRONMENT FRIENDLY TECHNOLOGIES

### 100% BIO-NATURAL

Nature assimilates a bottle in less than 6 months

### GREEN TECHNOLOGY THAT WORKS

We want to make cycling an increasingly greener activity. So it's with pride that we present you with our special biodegradable bottles made from natural raw material. Being biodegradable means that nature can assimilate a disposed of bottle in less than six months without harming the environment or atmosphere. At the same time, by using natural raw material we also reduce the use of fossil fuel.

- Material derived from renewable sources.
- Fully biodegradable plastic that behaves like traditional thermoplastics.
- Bioplastic as defined by the European Bioplastics Association.
- Biodegradable Plastic as defined by the EN 13432:2000 and EN 14995:2006 standards.
- Reduction in the emission gases that cause the "green-house" effect.

Made with

ref. - 550 ml

### ANTI MICROBIAL

Anti microbial thermoplastic

### RIDING HARD, DRINKING SAFELY

Intense use of the bicycle calls for better accessories. To avoid the well-known microbial problems associated with plastic water containers like odours and bad-tasting water, Polisport introduces the Anti Microbial bottle. By using anti microbial thermoplastic, this bottle provides protection against harmful bacteria. It not only prevents the formation of new microbes but it also eliminates any existing ones in 24 hours. Keeping all harmful infections at distance, this is the most durable bottle on offer.

- PROTECTION = HYGIENE = HEALTHIER SPORTS
- This bottle releases ions which act against harmful bacteria (proven to kill >99.9%] complies with JIS Z 2801 and ISO 22196:2007.
- No unpleasant odours or flavours that microbial organisms can create.
- EFSA and FDA approved as suitable for food contact.
- Complies with EN 71-1,2,3 and Regulation 10/2011.

ref. - 550 ml  
**8644400007** - light blue

 master box box dimensions  
88 UN  
768 x 388 x 432

### CORK BOTTLES

Mixture of plastic and cork

### LESS PLASTIC FOR A BETTER ENVIRONMENT

The functional simplicity of the water bottle does not mean we cannot strive to improve it. Polisport is pioneering a green technological solution by using a mixture of plastic and cork in the production of water bottles. This reduces the use of plastic in favour of a natural raw material with better thermal performance. Cultivated and extracted by using sustainable methods, the cork also adds lightness to the bottle while offering a pleasant touch and better grip.

- Ecological and sustainable material.
- Reduction in CO2 emissions and fossil fuel usage.
- Soft to the touch with a natural and hypoallergenic surface.
- EFSA and FDA approval as suitable for food contact.
- Complies with EN 71-1,2,3 and Regulation 10/2011.

## The new trendy thermal water bottle

keeps the water cold or hot.

Trendy colorful design matching the bicycle and outdoor style.

Thermal efficiency due to its fully wrapped aluminum Pet layer with air bubble - keeps the temperatures for up to 4 hours with cold liquid - keeps water cold twice as long as regular sport bottles.

**Cold or hot until the last drop.**

## ALUMNA

4 HOURS THERMAL

### MODEL

Alumna

### HYDRATION CAPACITY

500 ml/16,91 fl. oz

### STANDARDS

EN 71 - 1, 2, 3

Regulation 10/2011

### WEIGHT

153 g / 0,34 lb

### MATERIAL

Bottle - LDPE - low density polyethylene.

Inner Tank: Hi-Density Polyethylene.

CAP: Polyester resin - BPA free.

TIP: POP - Polyolefin Plastomer.

### OPENING

Screw-On Opening

(wide opening Ø 65 mm)

**8644700001** - clear/gold

**8644700002** - clear/silver

**8644700003** - clear/blue

**8644700004** - clear/orange

### OTHER FEATURES

Trendy colorful design matching the bicycle and outdoor style.

Thermal efficiency due to its fully wrapped aluminum Pet layer with air bubble - keeps the temperatures for up to 4 hours with cold liquid - keeps water cold twice as long as regular sport bottles.

Bottle body with easy-squeeze transparent polyethylene.

Wide-mouth opening is easy to fill with ice and water and a breeze to clean.

Regular Hi-Flow of liquid - Easy-squeeze bottle delivers the right flow to quench your thirst.

Ergonomic grip.

Cap with soft push-pull tip and protective cap.

CAP: Polyester resin - taste your beverage and not your bottle.

Cap can be completely removed for better cleaning and fill up.

Heating the bottle in a microwave it's not allowed since contents can heat unevenly, and the bottle can get damaged.

Putting boiling liquids in the Alumna Bottles it's not allowed.
